Harwood Heights

1.0 Overview

1.1 Introduction

The Lead Service Line Replacement and Notification Act (Act), State of Illinois Public Act 102-0613, went into effect on January 1, 2022. This Act required that every owner or operator of a community water supply (CWS) that has known or suspected lead service lines (LSLs) create a plan to replace each lead and galvanized service line (if connected downstream of lead piping); submit that initial plan to the Illinois Environmental Protection Agency (Agency) by April 15th, 2024; submit by April 15th of each year after 2024 until 2027 an updated lead service line replacement plan to the Agency; and submit by April 15th, 2027 a final lead service line replacement plan to the Agency. The Act also requires that the plan is posted on the community water supply's website.

This Plan will be available on the Village's website until April 15, 2025, at which time it will be replaced with an updated Plan.

The Village of Harwood Heights has prepared an initial Lead Service Line Replacement Plan (Plan) in compliance with the Act and its requirements. The Plan includes the name and identification number of the CWS; an inventory of the total service lines, known and suspected LSLs, and LSLs that have been replaced since 2020; a proposed replacement schedule; a cost analysis with financing options; a prioritization plan; community outreach measures; and workforce development measures.

2.0 Background Information

2.1 Location

The Village of Harwood Heights is located in Cook County in northeastern Illinois approximately 14 miles northwest of downtown Chicago in Cook County, IL. The Village is bounded by Chicago to the north and east, and Norridge to the west and south. The Village corporate boundaries encompass an area of approximately 0.82 square miles.

2.2 Community Water Supply (CWS)

The Community Water Supply (CWS) is named Harwood Heights and is IEPA Water System No. IL0311140. The CWS serves a population of 9,065 and has 2,290 service connections as reported to the IEPA and posted to Illinois.gov under the Illinois Drinking Water Watch.

The CWS takes ownership of the service line extending from the water main to the water shut-off valve or Buffalo Box (b-box)/curb stop while the property owner takes ownership of the service line from the water shut-off valve or Buffalo Box (b-box)/curb stop according to the City's Code of Ordinances, listed in Appendix 1.

3.0 Lead Service Line Inventory (LSLI)

3.1 Summary

The definitions of water service line materials in the CWS's inventory adheres to the definitions provided by the Illinois EPA. These definitions are outlined in the table below.

Service Line Material
Copper – No Lead Solder (C)
Galvanized Requiring Replacement (GRR)
Lead (L)
Cast/Ductile Iron (O)
Unknown (U)
Unknown Not Lead (UNL)

The CWS has made ongoing efforts to complete its inventory. These efforts include those listed below: reviewing resident surveys, water meter replacement records, a property’s building age, exploratory excavations at targeted locations, visual inspection of interior service lines, and predictive modeling for properties without known material type.

- **Building Age:** For those buildings constructed after 1988, service lines are assumed to be non-lead on both the public and private sides.
- **Historical Records:** Where available, historical records were used to identify service line material. Historical records could include water meter replacement records, water main replacement records, water main tapping cards, water meter cards, permit records, and documentation from maintenance and repairs.
- **Visual Identification:** The CWS staff recorded service line material when entering private property.
- **Resident-Provided Photos:** The CWS distributed a survey in which residents could provide photos of their service line. A sample survey mailer is included in Appendix 6. Trained staff identify the service line material based on the photos and the photo and material are recorded and saved on the CWS GIS.
- **Exploratory Excavations:** Very few records contain information on the public-side service line material. A contractor excavated in the parkway to determine public-side material at select locations to determine lead density throughout the service area.
- **Predictive Modeling:** Those addresses for which there are no historical records or survey responses to verify the private side of the material and are within the time period in which lead services were installed were included in a machine learning predictive model that correlates service line material to building characteristics. Any addresses that have a greater than 50% chance of having a lead service is considered suspected lead on the inventory spreadsheet.

The current inventory includes:

- The total number of services lines in the CWS for the current year;
- The material composition of each service line in the CWS’s distribution system;
- The count of suspected lead service lines identified since the last inventory submission;
- The number of suspected or known lead service lines replaced since the last inventory submission

A copy of the inventory submitted to the Agency that lists the total number of service line connections, total LSLs, and total suspected LSLs is included in Appendix 2. A map of the building ages in the CWS is included in Appendix 3. Buildings built prior to 1970 have a higher probability of having a lead service.

Service Material	# of Services	
	Private	Public
Lead (L)	209	209
Unknown Suspected Lead (U)	18	18
Galvanized Requiring Replacement (GRR)	0	0
Not Lead (NL)	2063	2063

3.2 Previous Replacements

The CWS has not begun replacing lead and galvanized service lines.

4.0 Funding Considerations

The funding sources for the Lead Service Line Replacement (LSLR) Program will be considered and evaluated in this section. A proposed funding plan to meet the requirement to complete the LSLR within the fifteen (15) year replacement timeframe will be presented.

Based on an inventory of 209 LSLs and a replacement cost of \$11,000, the CWS will need \$2,299,000 to fund the LSLR Program. The CWS will likely use a combination of the funding sources described in this section. With a mandated replacement rate of 7%, the CWS will plan to replace 15 LSLs annually at a projected cost of \$165,000.

4.1 Federal & State Funding Sources

Other possible funding sources would be periodically evaluated for favorability and affordability. These funding sources could include:

Illinois Environmental Protection Agency (IEPA) State Revolving Fund Loan Program (SRF)

Illinois Department of Commerce and Economic Opportunity (DCEO) Grants

HUD-administered Community Development Block Grant (CDBG)

Congressional Discretionary Funding

United States Environmental Protection Agency (USEPA) Community Change Grants

LeadCare Cook County

Rebuild Illinois Program

4.1.1 IEPA State Revolving Fund (SRF)

The Bipartisan Infrastructure Act reserved \$15 billion in funding for LSLR in the United States over five years. To date, the State of Illinois has received \$337.1 million in the first two years of funding. The amount of funding reserved for LSLR in the State of Illinois for the next three years is unknown. This funding is available as low-interest and forgivable loans allocated through the Illinois EPA SRF loan program.

The IEPA SRF loan program awards loans according to census tract scoring that considers demographic information that will be discussed in more detail in the Prioritization section. A preliminary census tract ranking system was developed with available census data and 2023 inventory information. The ranking may change with updates to the census demographic data or with any changes in the number and density of lead services. This ranking system is developed using the best available knowledge and will be updated annually with new information.

For planning purposes, the CWS will assume that it receives forgivable loans for LSLR in census tracts with a combined score higher than 300 and 0% interest loans for LSLR in census tracts with a combined score higher than 250.

Census Tract	Score	Rank	LSLs
Census Tract 8106, Cook County, Illinois	185	3738	51
Census Tract 7709.01, Cook County, Illinois	160	4651	155
Census Tract 8105.02, Cook County, Illinois	130	5981	3

Current estimates suggest that the SRF loan program would likely not provide loans for 209 LSLRs within the CWS.

4.1.2 Illinois Department of Commerce and Economic Opportunity (DCEO) Grant

The Office of Community Development supports economic development, community development, and infrastructure improvements in Illinois communities with substantial low-to-moderate-income populations. Various DCEO grants can be used for LSLR funding. The CWS will periodically review available grants.

4.1.3 HUD Community Development Block (CDB) Grant

The Office administers the federally funded Community Development Block Grant (CDBG) program that assists low-income populations. LSLR Programs are eligible for CDBG funding in qualifying areas. The CWS will evaluate their eligibility for CDBG funding.

4.1.4 Congressional Discretionary Funding

Each member of the United States Congress receives an allotment of grant funding to be used at their discretion annually. While no funding has been awarded and it is unlikely that Congressional Discretionary Funding will be a significant source of funding, this source of funding is still an option to fund a portion of a project.

4.1.5 United States Environmental Protection Agency (USEPA) Community Change Grants

The USEPA has recently funded \$2 billion for the Community Change Grants to be used in pollution reduction projects, which would include lead service line replacements. The maximum amount the CWS may receive for lead service line replacements is \$20 million. The below census tracts are eligible for Community Change Grant funding. Those census tracts that are in bold are unlikely to receive IEPA SRF funding and are the suggested project areas for a Community Change grant award.

Census Tract	LSLs
Census Tract 8106, Cook County, Illinois	51
Census Tract 7709.01, Cook County, Illinois	155
Census Tract 8105.02, Cook County, Illinois	3

4.2 Revenue-Generating Funding Sources

The local and direct revenue generating methods that are evaluated in the Plan are:

- Increased local sales taxes
- Resident cost sharing
- Water rate increase
- Increase of other taxes

The proposed taxes and fees would be continuous revenue sources set at rates to meet the mandated annual LSLR rate.

4.2.1 Increased Local Sales Tax

Communities, counties, and sports authorities have imposed a modest sales tax increase over a determined period of time to generate revenue from the constituents that benefit from the proposed improvement.

The Village of Harwood Heights municipal Sales Tax generated \$1.84 million in FY23. The sales tax rate for retail sales in Harwood Heights is:

Illinois	6.25%
Cook County	1.75%
Harwood Heights	1.25%
Regional Transport Authority	1.00%
	10.25%

Therefore, if the Harwood Heights Municipal Sales Tax were increased 0.25%, an additional \$368,500 (0.25/1.25 x \$1.84 million) would be available annually for LSLR. If the tax were increased 0.50% then \$737,000 could be available annually for LSLR. An increase in local sales tax could fund 33 or 67 LSLRs annually, respectively.

4.2.2 Resident Cost Sharing

Resident cost sharing is another revenue-generating method that shares the cost of replacement with those whose properties are affected. A cost sharing program that includes a \$25/month replacement charge on the water bill for twenty years would generate \$300 per LSLR per annum and \$6,000 over the repayment period. This repayment amount covers the approximate cost of the private side of the replacement while remaining affordable for affected water customers.

The CWS will evaluate this method based on affordability and ease of implementation. This method would require the ability to tie the cost sharing to the property title so that it transfers with any change of property ownership. This method is also more feasible when the intent is to cover annual loan repayments versus the total construction cost for that year.

4.2.3 Water Rate Increase

The CWS can consider raising rates to fund the LSLR Program. The rate increase will be evaluated for affordability and for its ability to fund the Program. A rate increase of 5% would generate an additional \$120,000 annually from the \$2.40 million generated in fees in FY23. The current water rates are included in Appendix 4.

4.2.4 Increase of Other Tax Sources

Besides sales and property taxes, the State of Illinois has about twenty-six other revenue sources as taxes, fees, assessments, license fees, lottery, use fees, transfer tax and user fees ranging from Automobile Renting Occupation and Use Tax to Video Gaming Tax and License Fee. The time to enact a tax in any form to fund the LSLR is prohibitive and the likelihood of enactment is very low, based on existing taxes. Additional revenue from State funding or from Federal sources into a State administered fund is not guaranteed.

4.3 Potential Funding

The CWS could use a combination of any of the methods discussed above to generate sufficient funds to cover the replacement costs. However, it is the intent of the CWS to maximize grants and forgivable loan awards to cover LSLR costs.

4.4 Financial Plan

The CWS will consider all funding sources listed above. The financial plan, like the other elements of the Plan, is a living document and can change as the availability of funding changes. The CWS recognizes that there is a funding gap of **\$2.3 million** to replace all LSLs within its service area.

The CWS will continue to develop a financial plan for future replacements as more information on the inventory, bidding environment, and funding is gathered.

5.0 Prioritization

Since the number of LSLs in the system exceeds the number of replacements the CWS can afford in a single year, the LSLR Program must include an element of prioritization. The CWS will follow the mandated replacement rate of 7% or 15 LSLs per year for 15 years laid out in the Act. The CWS will prioritize replacement project areas based on risk factors and planned companion infrastructure projects.

5.1 Risk Factors

The population most at risk of exposure to lead and with the highest health risks when exposed is children and seniors in disadvantaged areas. The IEPA SRF loan program incorporates census data for median household income, children under the age of 6, unemployment rate, poverty rate, social security rate, and supplemental security income to prioritize at-risk populations. The CWS will use the IEPA SRF scoring system to prioritize those areas with the most at-risk populations.

The CWS will also prioritize replacements in high-risk facilities such as daycares, schools, parks, hospitals, and nursing homes.

5.2 Prioritization Factors by Vermont Department of Environmental Conservation

When the service area of the CWS with the same level of risk contains more lead services than can be replaced in a year, the CWS will consider companion infrastructure projects such as water main replacements, water meter replacements, and road resurfacing projects when prioritizing each year's project area.

The Vermont Department of Environmental Conservation developed a prioritization rubric as a standard and transparent method for determining replacement order according to the factors discussed. The table below lists the prioritization factors and priority points as recommended by the Vermont Department of Environmental Conservation and then the priority points developed by the CWS to account for the Illinois-specific requirements of the Act and IEPA SRF-funding.

As each LSL is identified and categorized with any possible number of the prioritization factors listed below, the summation of the factors yields a prioritization points Score using the rubric, as a guide to scoring based on the criteria, as shown below.

Priority Points – Vermont Department of Environmental Conservation	CWS /REL Priority Points	Prioritization Factor	LCRR Requirement
10	8	Known Lead Service Line	Required
10	80	Populations Most Sensitive to the Effects of Lead <ul style="list-style-type: none"> • Schools and Day Care Facilities • Homes with children and/or adults who are pregnant or may become pregnant 	Required
10	10	Disadvantaged Communities	Required
8	8	Known GRR Service Line	Required
5	2	Populations Most Sensitive to the Effects of Lead <ul style="list-style-type: none"> • Nursing Homes • Medical Facilities 	Not Required
5	8	Companion Projects (concurrent infrastructure projects)	Not Required
5	8	Compact Projects (concurrent project in the same area)	Not Required
3	8	Long Length Lead Pipe Projects (or high lead results)	Not Required
2	6	Other Factors Listed in ANSI/AWWA C810-17 § II.A. <ul style="list-style-type: none"> • Service lines physically disturbed by digging, excavation, repair, or other activities • Existing partial lead service line replacements • Consideration of presence of lead goosenecks or pigtails 	Not Required
N/A	20	Funding Eligibility	Not Required

N/A	5	LSL Density	Not Required
1	5	Other Factors Significant to the Water System	Not Required

5.3 Emergency Work-related Lead Service Line Replacement (EW-LSLR)

LSLR instances arising from breaks or leaks on the public side of the service line are completed under this program. Upon notification of a break or leak from the customer, the Water Department dispatches a crew to assess the location and feasibility of repair. Subsequently, an EW-LSLR is initiated to replace the affected lead service. Private-side breaks or leaks are not covered under this program.

6.0 Lead Service Line Replacement (LSLR)

6.1 Scope of LSLR

The work shall consist of the removal and replacement of lead or galvanized iron water services for buildings within the specified service area. The area will be determined based on prioritization, material, building age, and funding limits, but all will be within the corporate boundaries of the CWS. New copper service lines shall be installed for full and partial lead service line replacement. Full lead service line replacement shall be defined as connecting from the water main to inside the building. Partial service line replacement shall be defined as connecting from the curb box (B-box or buffalo box) to the water main. No lead piping will be left in the water system. Partial replacements will only occur where the existing service is partially lead or galvanized. Cross-sectional replacement details are included in Appendix 5.

Replacements will begin in Census Tract 8106. These replacements are expected to last four years at the mandated replacement rate but will depend on the maximum amount of annual IEPA SRF funding received.

6.2 Replacement Methods

The methods of installing the new service are described below. To minimize impacts to residential property and to reduce restoration, trenchless methods are preferred.

Open cut: Open cut trenching is the typical method used by plumbers, especially for properties slated for demolition and replacement. It involves digging a trench, which can cause significant exterior disruption to property owners. Interior disturbances depend on whether the basement is finished. Despite its disturbance, open cut trenching is often the most cost-effective option, particularly when restoration costs are minimal. This approach is advised based on individual circumstances.

Trenchless: Trenchless installation of water services is being explored to address concerns such as economic impact, landscape disruption, and social inconveniences associated with traditional open cut methods. Advances in trenchless technologies offer a more efficient alternative in certain situations, minimizing surface disruption and restoration time. These methods are socially appealing as they cause less destruction and require less restoration compared to open cut techniques.

Standard Horizontal Directional Drilling: Standard Horizontal Directional Drilling (HDD) involves using a drill rig on the ground surface to create a tunnel underground. To reach a depth of about 5'6" below the ground surface, the drill rig head must be positioned approximately 30 feet away from the final depth point of the water service. This may require closing the road for safety. While many pipeline and cable contractors employ this method, plumbing contractors often subcontract it out as specialty work.

Pipe pulling: Pipe pulling is the most cost-effective method among trenchless options for installing water services. It involves using the path of the existing pipe, eliminating the need for additional excavation. A new water service pipe is pulled along the existing route, often with a winch or excavator bucket with a cable. The new copper service is connected to the existing lead service in the home, effectively replacing it using the borehole left by the removed lead pipe.

The connection to the water main typically incorporates the use of a tapping sleeve and is done by a licensed plumber. The licensed plumber also connects the new service line to the existing water meter inside the house according to the State of Illinois plumbing code.

Prior to completion of the work, the Contractor shall provide each address that received a new service line with a Point of Use water filter that meets both NSF/ANSI 42 and 53 certifications for lead reduction with a minimum capacity of 0.5 gallons and six months of replacement cartridges or a minimum of 150 gallons of filtration capacity. The filter shall not be a permanent faucet filter. The Contractor shall have the resident provide a signature to acknowledge receipt of the filter on a form provided by the Village. The form shall be turned in with other documentation.

Prior to beginning the work of connecting the new service inside the house, the water supply to the service line and the property owner shall be shut off to avoid release of particulate lead into the property owner’s premises. After all connections have been completed, the Contractor shall flush the water from an outside connection (such as a hose bibb or hose leading from the building side of the meter) to remove any particles in the service line. Flush at full velocity for at least 30 minutes. The Contractor shall then advise the property owner to flush the interior premise plumbing in accordance with the instructions provided in the Owner-provided informational material. This work shall be conducted in accordance with AWWA C810-17 – Replacement and Flushing of Lead Service Lines.

The Village will use these standards when performing lead service line replacement:

Item	Condition
1. Restoration of Interior and Exterior	Meet existing condition or better
2. Parkway/Yard Restoration	Sod, Seed in Summer
3. Field Locate B-boxes	Location by Village
4. Trench backfill	CA-7
5. Verify B-box operation at Project Completion – after surface restoration	B-boxes keyed by Village
6. Street Cross Sections	Minimum 6-inch pavement patching
7. Work Hours	Monday to Friday 7 am to 7 pm Saturday 8 am to 7 pm No Work Sunday or Holidays, except Contractor my Schedule meeting/inspection at buildings on Sunday.
8. Meter Pits	Village will be consulted prior to relocating meter to building interior and abandoning the meter pit. Contingency Pay Item for this work included in contract.
9. B-box	Mueller H-10302, Minneapolis Pattern or approved equal
10. Curb stop	Mueller Ball Style: H15150 or approved equal
11. Corp Stop	Mueller H-15000 or approved equal
12. Saddle for corp stop	Smith-Blair or Ford Repair Clamp
13. Abandon existing Lead Service Line	Cap.

6.3 Completed LSLR

The CWS has not completed any lead service line replacement projects.

7.0 Workforce Development

In performing projects associated with the Lead Service Line Replacement initiative, the CWS plans to develop the workforce available to perform these projects. These developmental practices include:

Smaller bids: The CWS will break the required replacements into smaller projects within the CWS, so that the bids will be smaller and more attainable for smaller firms.

College engagement: The CWS will engage with local colleges and institutions to train new individuals entering the workforce.

Hiring local: The CWS will include a clause within the scope of work for interior work and inspections to be conducted by local contractors who have an understanding of the community.

Experience contractor teaching: An experienced contractor teaches a smaller contractor how to perform the work.

Diversity in hiring practices are another aspect to workforce development and would include contacting all local MBE and WBE contractor associations during bidding.

The Contractor shall also take the following specific affirmative action to ensure equal employment opportunity:

- Ensure and maintain a working environment free of harassment, intimidation, and coercion at all sites, and in all facilities at which the Contractor's employees are assigned to work. The Contractor, where possible, will assign two or more women to each construction project. The Contractor shall specifically ensure that all foremen, superintendents, and other on-site supervisory personnel are aware of and carry out the Contractor's obligation to maintain such a working environment, with specific attention to minority or female individuals working at such sites or in such facilities.
- Establish and maintain a current list of minority and female recruitment sources, provide written notification to minority and female recruitment sources and to community organizations when the Contractor or its unions have employment opportunities available, and maintain a record of the organizations' responses.
- Maintain a current file of the names, addresses and telephone numbers of each minority and female off-the-street applicant and minority or female referral from a union, a recruitment source or community organization and of what action was taken with respect to each such individual. If such individual was sent to the union hiring hall for referral and was not referred back to the Contractor by the union or, if referred, not employed by the Contractor, this shall be documented in the file with the reason; therefore, along with whatever additional actions the Contractor may have taken.
- Provide immediate written notification to the Director when the union or unions with which the Contractor has a collective bargaining agreement has not referred to the Contractor a minority person or woman sent by the Contractor, or when the Contractor has other information that the union referral process has impeded the Contractor's efforts to meet its obligations.
- Develop on-the-job training opportunities and/or participate in training programs for the area which expressly include minorities and women, including upgrading programs and apprenticeship and trainee programs relevant to the Contractor's employment needs, especially those programs funded or approved by the Department of Labor.
- Disseminate the Contractor's EEO policy by providing notice of the policy to unions and training programs and requesting their cooperation in assisting the Contractor in meeting its EEO obligations; by including it in any policy manual and collective bargaining agreement; by publicizing it in the company newspaper, annual report, etc.; by specific review of the policy with all management personnel and with all minority and female employees at least once a year; and by posting the company EEO policy on bulletin boards accessible to all employees at each location where construction work is performed.
- Review, at least annually, the company's EEO policy and affirmative action obligations under these specifications with all employees having any responsibility for hiring, assignment, layoff, termination, or other employment decisions including specific review of these items with onsite supervisory personnel such as Superintendents, General Foremen, etc., prior to the initiation of construction work at any job site. A written record shall be made and

maintained identifying the time and place of these meetings, persons attending, subject matter discussed, and disposition of the subject matter.

- Disseminate the Contractor's EEO policy externally by including it in any advertising in the news media, specifically including minority and female news media, and providing written notification to and discussing the Contractor's EEO policy with other Contractors and Subcontractors with whom the Contractor does or anticipates doing business.
- Direct its recruitment efforts, both oral and written, to minority, female and community organizations, to schools with minority and female students and to minority and female recruitment and training organizations serving the Contractor's recruitment area and employment needs. Not later than one month prior to the date for the acceptance of applications for apprenticeship or other training by any recruitment source, the Contractor shall send written notification to organizations such as the above, describing the openings, screening procedures, and tests to be used in the selection process.
- Encourage present minority and female employees to recruit other minority persons and women and, where reasonable, provide after school, summer and vacation employment to minority and female youth both on the site and in other areas of a contractor's work force.
- Validate all tests and other selection requirements where there is an obligation to do so under 41 CFR Part 60-3.
- Conduct, at least annually, an inventory and evaluation at least of all minority and female personnel for promotional opportunities and encourage these employees to seek or to prepare for, through appropriate training, etc., such opportunities.
- Ensure that seniority practices, job classifications, work assignments and other personnel practices, do not have a discriminatory effect by continually monitoring all personnel and employment related activities to ensure that the EEO policy and the Contractor's obligations under these specifications are being carried out.
- Ensure that all facilities and company activities are non-segregated except that separate or single-user toilet and necessary changing facilities shall be provided to assure privacy between the sexes.
- Document and maintain a record of all solicitations of offers for subcontracts from minority and female construction contractors and suppliers, including circulation of solicitations to minority and female contractor associations and other business associations.
- Conduct a review, at least annually, of all supervisors' adherence to and performance under the Contractor's EEO policies and affirmative action obligations.

8.0 Resident Communication and Outreach

To ensure effective community engagement, the CWS's outreach program for the Lead Service Line Replacement (LSLR) initiative will employ various communication methods aimed at informing and involving homeowners. Central to the program's success is consistent and informative communication across multiple platforms, including meetings, press releases, door-to-door notifications, and social media channels. By leveraging these diverse communication channels, the program aims to raise widespread awareness about the significance of the LSLR program and the options available for homeowners to participate. Early successes of the program will be shared with the community to foster positive feedback and encourage support for the initiative.

To effectively communicate the goals and requirements of the LSLR program, a comprehensive outreach & communication plan is developed, outlining key messaging, target audiences, and preferred communication methods. Emphasis will be placed on building trust and transparency with homeowners, ensuring they understand the benefits of participating in the program. Notices will be sent to homeowners at least 45 days before the commencement of work, with repeated notifications every two weeks until confirmation of receipt. Special attention will be given to non-English speakers, providing translated notices and instructions for accessing additional resources. As previously mentioned, the Community Outreach and Public Engagement plan will be vast, consistent, and includes:

Stakeholder Identification: The CWS has identified key stakeholders, including residents, local businesses, community organizations, schools, healthcare providers, and governmental agencies.

Educational Materials: The CWS is developing comprehensive educational materials explaining the importance of lead service line replacement, potential health risks associated with lead exposure, details of the replacement process, and available resources for assistance. The materials currently developed and used for LSLR outreach are added in Appendix 6.

Multi-Channel Communication: The CWS plans to utilize a variety of communication channels to reach different segments of the community, including:

- Printed materials such as program brochures, flyers, door hangers and direct mail distributed to households, businesses, and public spaces.

- Digital platforms including the village website, email newsletters, and community forums.

- Information sessions and workshops held at community centers, schools, and other public venues.

- Door-to-door outreach by trained community volunteers or outreach workers to engage directly with residents.

Social Media Channels: The CWS intends to utilize its social media platforms (Facebook) to engage with residents regarding lead exposure concerns. Posts will include links to informative resources on the CWS's website, as well as videos and webinars explaining lead risks and the CWS's efforts to mitigate them. Social media will also be used to announce upcoming project activities, public outreach events, and success metrics such as the percentage of lead pipes replaced.

Language and Accessibility: The CWS will ensure that all materials and communication efforts are available in multiple languages to accommodate the linguistic diversity of the community. Additionally, make information accessible to individuals with disabilities by providing alternative formats such as large print or audio versions.

Personalized Outreach: The CWS will tailor outreach efforts to specific demographics or neighborhoods within the service area, taking into account factors such as income level, age, cultural background, and housing status. Engage community leaders and influencers to help disseminate information and encourage participation.

Community Workshops and Events: The CWS has plans to organize community workshops, town hall meetings, and informational events where residents can learn more about the lead service line replacement program, ask questions, and provide feedback. Offer opportunities for hands-on demonstrations or tours of the replacement process and an avenue for public comment on the LSLR plans.

One-on-One Assistance: The CWS intends to provide personalized assistance and support to residents who may have questions or concerns about the replacement program. Establish a dedicated hotline or helpline staffed by knowledgeable personnel to address inquiries and provide guidance.

Feedback Mechanisms: The CWS plans to implement feedback mechanisms such as surveys, focus groups, or public hearings to gather input from residents throughout the planning and implementation phases of the program. Use this feedback to adjust and improvements as needed.

Collaboration and Partnerships: The CWS plans to collaborate with local organizations, community groups, schools, healthcare providers, and governmental agencies to amplify outreach efforts and leverage existing networks and resources.

Ongoing Engagement: The CWS will maintain ongoing communication and engagement with the community beyond the initial outreach phase. Provide regular updates on the progress of the replacement program, share success stories, and continue to address any concerns or issues that arise.

Non-Participation/Waivers: Homeowners in the CWS may not always be ready to engage with or communicate regarding the LSLR program. At present, the CWS lacks the authority to mandate homeowner access to private property or demand access for replacing the private side of the LSL. For those who choose not to participate, an Illinois Department of Public Health waiver form will be available. Efforts to communicate will be recorded for unresponsive homeowners. Nevertheless, these households will still receive complimentary point-of-use filters along with six replacement cartridges.

Appendix 1

Code of Ordinances

13.04.090 - Responsibility for repairs.

- A. Three-quarter inch and one inch services are the responsibility of the village to repair from the main to the B-box. It is the owner's responsibility to make all repairs from the B-box to the meter and beyond.
- B. For all water services that are larger than one inch, the responsibility for the repair of such lines belongs to the user from the village water main to the meter and beyond.

(Prior code § 52.17)

Appendix 2

Complete Lead Service Line Inventory

Lead Service Line Inventory Template

*Please enter information in the empty box next to each section	Water System Name	Harwood Heights			System ID Number:	IL0311140		Current Inventory Date:	4/15/2024		
*Please enter totals in the empty box next to each category	Total Service lines:	2290	Total Lead:	209	Total Non-Lead:	2063	Total Galvanized Requiring replacement:	0	Total Unknown:	18	Website link to Material Inventory:

Service Address	Lead and Copper Sample site number.	Is this a high-risk Facility or Area?	Service Line Newly Identified Since Last Submitted Inventory	Year PWS-Owned Service Line was Installed	Year Customer Side Service Line was Installed	Source of Information Used for Service Line Identification	Gooseneck/Pigtail	PWS-Owned Service Line Material	Customer Side Service Line Material	Classification for Entire Service Line	Was Galvanized Service Line Material ever downstream of Lead?	Date Customer Notified of Lead Service Line	Was a Lead Service Line Previously Replaced at this Location?	Date Lead Service Line Replaced	Material of Service Line Replacement	Has the customer refused access to the property?	Date of customer waiver or IDPH notification, if customer refused access to property
	Lead and Copper Sample site number is the 7 digit number starting with "LP" or "LA". / If address is not a lead and copper sample site mark "N/A"	EXAMPLES: Group Homes, Parks, Playgrounds, Special Care Facilities, Hospitals, Clinics, Child Care Facilities Yes (Y) or No (N)	Yes (Y) or No (N)	What year was the PWS-Owned service line installed, if known?	What year was the customer side service line installed, if known?	How was the Material of this Service Line Identified? EXAMPLES: Construction Records, Visual Inspections, Survey Response, Maintenance Records, etc...	EXAMPLES: Copper - No Lead Solder (C) Copper - Lead Solder (CLS) Galvanized (G) Lead (L) Cast/Ductile Iron or Transite (O) Plastic - PVC, HDPE, PEX (P) Unknown (U) Unknown Not Lead (UNL)	EXAMPLES: Copper - No Lead Solder (C) Copper - Lead Solder (CLS) Galvanized (G) Galvanized Requiring Replacement (GRR) Lead (L) Cast/Ductile Iron or Transite (O) Plastic - PVC, HDPE, PEX (P) Unknown (U) Unknown Not Lead (UNL)	EXAMPLES: Copper - No Lead Solder (C) Copper - Lead Solder (CLS) Galvanized (G) Galvanized Requiring Replacement (GRR) Lead (L) Cast/Ductile Iron or Transite (O) Plastic - PVC, HDPE, PEX (P) Unknown (U) Unknown Not Lead (UNL)	EXAMPLES: Lead (L) Galvanized Requiring Replacement (GRR) Non-Lead (NL)	If any galvanized service line material was ever downstream of a Lead section, mark Yes (Y). If the galvanized service line material was never downstream of any Lead section, mark No (N). / If Yes, that section of service line should be marked as Galvanized Requiring Replacement in the appropriate immediately preceding column(s).	Enter date customer was notified of Lead Service Line. / If Service Line is not Lead put N/R	Yes (Y) or No (N)	If previous column was marked (Y), provide date the Lead Service Line was replaced. / Leave blank if previous column was (N).	EXAMPLES: Copper - No Lead Solder (C) Galvanized (G) Plastic - PVC, HDPE, PEX (P) Cast/Ductile Iron or Transite (O) Leave blank if no Lead Service Line was replaced.	Yes (Y) or No (N)	IF customer refused access to property, date waiver obtained by PWS or date PWS notified IDPH of refusal to sign waiver. / Leave blank if customer has not refused access.

Appendix 4 Water Rates

Village of Hawood Heights, Illinois
Water/Sewer Rate Schedule

Water Rates - Effective June 1, 2022				
Type	Minimum Charge Per Billing ≤ 1,000cf	Rate Per 100 cubic ft.	Maximum Charge	Billing Frequency
Residential/Non Profit	64.05	6.41	N/A	Bi-Monthly
Residential (Seniors)	N/A	5.82	N/A	Bi-Monthly
Multi-Unit	70.88	7.09	N/A	Monthly
Commercial	82.11	8.21	N/A	Monthly

Sewer Rates - Residential & Non-Profit - June 1, 2022				
Type	Minimum Charge Per Billing	Rate Per 100 cubic ft.	Maximum Charge	Billing Frequency
Residential	12.61	0.63	31.54	Bi-Monthly
Residential (Seniors)	N/A	0.58	16.44	Bi-Monthly
Non Profit	12.61	0.63	31.54	Monthly

Sewer Rates - Multi-Unit/Commercial/Unincorporated - June 1, 2022				
Type	Minimum Charge First 1,000 cubic ft.	Rate Per 100 cubic ft.	Maximum Charge	Billing Frequency
2 Units	14.14	0.71	62.51	Monthly
3-4 Units	21.05	0.71	125.01	Monthly
5-18 Units	32.40	0.71	548.24	Monthly
19+ Units	33.20	0.83	548.24	Monthly
Commercial	33.20	0.83	1,096.47	Monthly

Title 13 PUBLIC SERVICES

Chapters:

Chapter 13.04 WATER SYSTEM

Sections:

Article 1. ***General Provisions***

13.04.010 Permits granted to licensees only.

No permit shall be granted under any section of this chapter to any person not licensed according to state law and this code.

(Prior code § 52.01)

Article 2. ***Service and Equipment***

13.04.020 Application for service.

- A. A person desiring water service shall make application to the water department upon a form furnished by the department giving such information as is required on the form.
- B. The application shall contain a statement that the applicant shall sign agreeing to comply with all ordinances relating to the waterworks system and agreeing to pay all applicable water rates, charges, fines and penalties.

(Prior code § 52.10)

13.04.030 Taps.

- A. No person shall tap onto the village's waterworks system without a permit issued by the water department. A person desiring such a permit shall apply to the department upon a form furnished by the department giving such information as is required on the form. Such form shall contain an agreement to abide by all applicable laws, ordinances, rules and regulations in the making of the tap.
- B. Upon applying for such a permit a person shall pay the proper tap fee indicated below:

Diameter of Pipe Connection (Inches)	Charge

¾	\$330
1	370

For large size taps, special prices may be established by the corporate authorities. An extra charge shall be made for the corporation cock and gooseneck. In addition thereto, the applicant shall pay the fee provided for street openings or portion thereof, to cover the cost of repair to street surfacing to be done by the village.

- C. Only licensed and bonded plumbers shall make the tap and such taps shall be made under the supervision of the department.

(Prior code § 52.11)

13.04.040 Obstructing hydrants, valves or other equipment.

It is unlawful for any person to obstruct the access to or interfere with or obstruct or damage any stopcock, fire hydrant, water valve, water meter, water shutoff box or any other thing connected to the village waterworks system. In addition to the penalty provided in Section 13.04.280, a person violating this section shall be liable for the damage to the waterworks system.

(Prior code § 52.12)

13.04.050 Water meter rental.

- A. All water use from a fire hydrant other than for fighting fires and/or access by the Harwood Heights Public Works Department must be registered through a water meter that is rented from the Village of Harwood Heights Water Department. Unauthorized opening of a hydrant and/or failure to register use by village meter shall result in a fine of five hundred dollars (\$500.00) in addition to the cost of any damages to the village water system. Each day that such violation occurs shall be a separate and punishable offence.
- B. The user of the meter will go to the village and pay the deposit fee for the size of the meter they prefer and then bring the receipt to the water department to schedule a time for the hydrant to be opened and the meter installed. The water department will record the existing reading on the receipt and make a copy for the user. The user shall contact the water department to pick up the meter and record the existing reading at the hydrant site when project is completed. Only public works employees and fire department personnel are authorized to open and close fire hydrants.
- C. Rental fees: weekly fee is any part of one day through seven days.

Size	Gal. per Minute	Deposit	Min. Fee + Use	Weekly. Fee + Use
5/8" — ¾"	20 gpm	\$200.00	\$20.00	\$10.00
1" meter	50 gpm	\$350.00	\$35.00	\$20.00
3" meter	450 gpm	\$1,000.00	\$100.00	\$50.00

- D. All fire hydrants must be opened and closed slowly so no water hammer is created. Only a hydrant wrench shall be used to operate the hydrant.
- E. If a meter is returned in a damaged condition, the user will be charged the full deposit fee, plus the minimum fee, plus the weekly fee, plus usage.

F. A list of the address or addresses of which fire hydrants were used must be given to the water department when the meter is returned.

(Ord. 04-12 § 1)

(Ord. No. 11-20, § 2, 7-14-11)

13.04.060 Connection and pipe specifications.

- A. The connections from the water main to the service cock shall be placed at least five feet below the level of the ground and shall be copper material. The pipe shall be so laid that it shall be at least one foot longer than if laid straight and placed in such manner as to prevent rupture or breakage from settling of the ground.
- B. All copper service pipe shall be type "K" and conform to A.S.T.M. standard specification for copper water tube. Such pipe shall meet the following specifications:

Diameter of Pipe (Inches)		Weight Per Lineal Foot (pounds)
Inside	Outside	
¾	0.875	0.455
1	1.125	0.655

- C. A stopcock, to be known as the "service cock," shall be inserted in each connection at a convenient joint in the street, alley, public ground or place through which such connection passes, and whenever there are curblines established, the service cock shall be placed not less than one foot nor more than three feet inside of such curbline with a cast-iron stop box to grade. In all cases it shall be located under the direction of the water department or its representative, and a record of the exact location thereof shall be kept.
- D. All stopcocks used in connection with the waterworks system or plant shall be "round way" and made of good brass, and shall be of a quality known as "standard." They shall be strong enough to stand a pressure of three hundred (300) pounds per square inch.

(Prior code § 52.14)

13.04.070 Automatic sprinkler system.

- A. Water pipes entering premises and used for fire protection only and connected with automatic sprinkler devices shall be supplied from a separate pipe having an independent connection with the main and shall be provided with an outside controlling valve and a meter of a type, design and size to be approved by the water department, all at the expense of the person using same, and shall be so constructed as to permit in case of necessity an uninterrupted flow of water.
- B. Whenever the owner of a sprinkler system desires to make a test thereof, the owner shall first notify both the water department and the fire district in writing to that effect at least twenty-four (24) hours prior to the time of such test. All water used in connection with such test shall be measured and paid for by the owner of such sprinkler system.

(Prior code § 52.15)

13.04.080 Notice of vacation of premises.

Any person who shall vacate any premises or any person who shall enter upon and occupy any premises shall immediately before vacating such premises or removing to such premises, notify the water department and request a reading of the meter.

(Prior code § 52.16)

13.04.090 Responsibility for repairs.

- A. Three-quarter inch and one inch services are the responsibility of the village to repair from the main to the B-box. It is the owner's responsibility to make all repairs from the B-box to the meter and beyond.
- B. For all water services that are larger than one inch, the responsibility for the repair of such lines belongs to the user from the village water main to the meter and beyond.

(Prior code § 52.17)

13.04.100 Emergency water use plan.

- A. The president is authorized during any declared water shortage crisis by federal, state or local government officials, to take the following necessary measures to reduce water demand to a minimum level necessary to maintain the health, safety and welfare of the residents of the village as follows.
 - 1. Place a ban on all external residential water uses including, but not limited thereto, watering of lawn, outdoor swimming pools and washing of cars;
 - 2. Impose industrial use restrictions including, but not limited to, the shutting down of all water using processes;
 - 3. Require the closing and shutting down of all commercial car washes of any type;
 - 4. Impose reasonable daily per capita consumption limits on all residents;
 - 5. Institute and carry out consumer education programs.
- B. The village president is further authorized during such emergency periods to prohibit the burning of any combustible material in any public way or public space or upon any private property within the village, except in an incinerator, stove or furnace installed within a building so constructed as to prevent the escape of burning material or sparks which might endanger surrounding property.

(Ord. No. 15-21, § 3, 9-10-15)

Editor's note(s)—Ord. No. 15-21, § 3, adopted Sept. 10, 2015, repealed the former section and enacted a new section as set out herein. The former section pertained to similar subject matter and derived from prior code § 52.18.

Article 3.

Rates and Charges

13.04.110 Meters.

- A. Except as otherwise provided in this chapter all water shall be supplied through water meters purchased through the water department.
- B. The cost of a water meter, together with its installation costs, shall be paid by the person requesting water service or the owner of the premises where it is placed.
 - 1. Beginning July 1, 2010 the water department will begin to replace all water meters in single family homes with remotely read meters. The village will furnish the initial replacement meter and installation at no cost to the owner of the property. The cost of a subsequent meter and its installation shall be the responsibility of the property owner.
 - 2. All water meters in commercial properties, nonprofit organizations, and multiple family dwellings must be replaced within six-months of notice. The meter and its installation shall be purchased through the village by the property owner or organization. All costs for this replacement shall be borne by the latter.
 - a. All water meters installed in commercial properties shall be tested every three years. The cost of the inspection is one hundred dollars (\$100.00) plus related testing fees.
- C. On all new residential or commercial construction, the water meter shall be installed so that it can be read through the use of a remote reader. Upon the conveyance of any commercial property or any single-family or multiple dwelling residential property to new owner(s), said new owner(s) shall upgrade the water meter(s) at said property, where applicable, to a water meter that can be read through the use of a remote reader.
- D. Property owners may have, at the option of the water department, more than one meter installed in one building on one service and controlled by a single stopcock in the parkway; provided, that the meters are not connected in tandem. Nothing less than the minimum charge will be made for each meter so installed, and the bills for the whole supply furnished through such service shall be made to the owner of the premises.
- E. Prior to the installation of the meter, a stopcock or valve shall be placed on each side of the meter by the builder and/or property owner. The meter shall be installed by village personnel. After the installation the meter shall be sealed by village personnel. If an inspection reveals that a meter has been removed or if there is evidence of tampering with either the meter or seal then a fine of one thousand dollars (\$1,000.00) for the first infraction shall be imposed on the property owner. The fine for subsequent infractions shall be doubled (two thousand dollars (\$2,000.00)). Property owners will be subject to criminal prosecution for the removal or the tampering of a water meter.
- F. All repairs and renewals of meters shall be at the direction of the water department. The owner of or applicant for the repair and replacement of a meter shall at all times be responsible for any damage done to such meter, including that caused by freezing, heat, vandalism, or theft thereof, or for the replacement of a seal placed by the department. If such meter needs to be replaced, it shall be replaced with one that can be read through the use of a remote reader. The cost of replacement due to negligence will be charged to the property owner. On buildings with four or more units, as well as commercial and industrial buildings, the users will be charged for all meter replacements.
- G. The owner of the property which received water service or the person who applied for water service shall notify the department of any malfunction or defect in the meter. If the meter is defective, the meter will be replaced at no cost. However, if a resident requests a meter check and the meter is found to be in good working order, a fifty-dollar (\$50.00) charge will be levied for this service.
- H. All inside water meters must be read by the meter reader at least once every six (6) months. Those residents who consistently read their own meters must place on file with the water department a letter stipulating the

reasons why the meter cannot be read on a regular basis. This letter does not preclude the stipulation that the meter must be read every six (6) months. For buildings where remote readers have been installed, the inside meter must be checked once a year to determine that the seal has not been tampered with and the meter is reading correctly. In either case, if a property owner refuses to allow the meter reader to read or inspect the meter, after one (1) year has passed, the owner will be required to install a remote reader at own cost and shall also be subject to a fine of one hundred fifty dollars (\$150.00) plus water to be shut-off for not allowing the meter reader to read, replace or inspect the meter.

(Ord. 07-09 § 2; Ord. 96-01 § 1; prior code § 52.25)

(Ord. No. 10-15, § 3, 5-13-10; Ord. No. 11-11, § 3, 3-24-11)

13.04.120 Persons liable.

The owner of the premises served by the village's water system, the occupant thereof and the user of the service shall be jointly and severally liable to pay for the service on such premises and the service is furnished the premises by the village only upon the condition that the owner of the premises, occupant and user of the service are jointly and severally liable therefor.

(Prior code § 52.26)

13.04.130 Metered rates.

A. Residential Use of Water (Bimonthly Billing).

1. The rate charge shall be six dollars and ten cents (\$6.10) per one hundred (100) cubic feet of water for all metered water use.
2. The minimum charge (bimonthly billing) per single-family unit is sixty-one dollars and zero cents (\$61.00) except as provided in subsection (3). A minimum charge shall also be applied when the actual water usage cannot be determined.
3. The charge for senior citizens (defined as those persons sixty-five (65) years of age or older) shall be five dollars and fifty-four cents (\$5.54) per one hundred (100) cubic feet of water used. No minimum charge will be applied to eligible senior citizens who own and reside in a single-family residence and have applied for this benefit.

B. Multiple-Family Use of Water (Monthly Billing).

1. The rate charges shall be six dollars and seventy-five cents (\$6.75) per one hundred (100) cubic feet of water for all metered water used.
2. The minimum charge per multiple-family (monthly billing) is sixty-seven dollars and fifty cents (\$67.50).

C. Commercial and Industrial Use of Water (Monthly Billing).

1. The rate charged shall be seven dollars and eighty-two cents (\$7.82) (monthly billing) per one hundred (100) cubic feet for all metered water used.
2. The minimum charge (monthly billing) is seventy-eight dollars and twenty cents (\$78.20).

D. Not-for-Profit Organizations Use of Water (Monthly Billing).

1. The rate charge shall be six dollars and ten cents (\$6.10) per one hundred (100) cubic feet of water for all metered water use.

2. The minimum charge (bimonthly billing) for not-for profit organizations is sixty-one dollars and zero cents (\$61.00).

E. Metered Water Rate Table.

Water Fees—Effective June 1, 2021				
Type	Minimum Charge per Billing ≤ 1,000 cf	Rate per 100 cf	Maximum Charge	Billing Frequency
Residential	\$61.00	\$6.10	N/A	Bi-monthly
Residential (seniors)	N/A	\$5.54	N/A	Bi-monthly
Multi-Unit	\$67.50	\$6.75	N/A	monthly
Commercial	\$75.50	\$7.55	N/A	monthly
Non-Profit	\$61.00	\$6.10	N/A	Bi-monthly

- F. All water rates shall automatically increase or decrease, without further action of the board, in direct proportion to rate increases or decreases imposed by the City of Chicago. The increase/decrease shall be effective for the first billing cycle following the village's receipt of the notification from the City of Chicago.

(Ord. 05-47 § 1 (part); Ord. 02-35 § 1; Ord. 00-26 § 1; Ord. 99-33 § 1; Ord. 98-03 § 1; Ord. 97-01 § 1: prior code § 52.27)

(Ord. No. 09-25, § 3, 8-13-09; Ord. No. 19-07, § 2, 5-23-19; Ord. No. 21-10, § 2, 5-13-21)

13.04.140 Estimation when meter fails to operate.

Whenever any water meter, by reason of its being out of repair, or for any cause, fails to properly register the water passing through the same, the consumer shall be charged at the rate shown for a corresponding time of a previous year under like conditions. If no record of a previous year exists, then it shall be the duty of the water department to estimate or determine, so far as they can, the amount of water consumed during the time such meter fails to operate, and the consumer shall pay the amount estimated by the water department.

(Prior code § 52.28)

13.04.150 Flat rate for construction purposes.

- A. Persons desiring to use village water for construction purposes shall in all cases apply to the village for a permit on a form provided by the department of buildings for that purpose, and shall be required to pay for all water consumed at the following rate:

1. For a single-family dwelling, the rate shall be increased from sixty-five dollars (\$65.00) to one hundred dollars (\$100.00);
2. For a two-family dwelling, the rate shall be increased from one hundred twenty-five dollars (\$125.00) to two hundred dollars (\$200.00);
3. For residential buildings in excess of two families, two hundred dollars (\$200.00), plus an additional fifty dollars (\$50.00) for each apartment of two (2) bedrooms or more;

-
4. For commercial or industrial buildings, the rate will be increased from two hundred dollars (\$200.00) to three hundred dollars (\$300.00) for buildings of ten thousand (10,000) square feet or less, plus an additional fifty dollars (\$50.00) for each additional five thousand (5,000) square feet (or portion thereof,) thereafter.
- B. The flat rate charge for water supplied for construction under any building permit shall terminate when occupancy of the premises begins. Any water used after the beginning of occupancy shall be charged at the metered rates.

(Ord. 01-50 § 1; prior code § 52.29)

13.04.160 Billing.

The village clerk shall cause a unified statement of water, sewer and garbage charges to be delivered to customers at least once every two months, provided that when customers are obligated on a monthly basis, the statement shall be delivered monthly.

(Ord. 05-47 § 1 (part); prior code § 52.30)

(Ord. No. 09-39, § 3, 12-10-09)

13.04.170 Due date—Penalty for late payment.

All bills for service shall be rendered as of the first day of the month succeeding the period for which the service is billed, and shall be payable not later than the close of business on the fifteenth day after date of bill. If payment of the full amount of the bill is not made within said period then a penalty of ten (10) percent of the bill shall be added thereto.

(Prior code § 52.31)

13.04.180 Delinquent water, sewer and/or garbage bills.

If charges for water, sewer and/or garbage service are not paid within sixty (60) days from the date of the bill for such service, or the amount of the bill is in excess of two hundred dollars (\$200.00), the charges shall be deemed to be delinquent. The village shall send a notice via U.S. first-class mail or hand delivery, to the persons liable for such service under Section 13.04.120 of the Village Code, notifying such person(s) of the right to a hearing regarding the accuracy of the bill and requesting payment in full within ten (10) days or the service will be terminated. In the event that service is disconnected, a fifty-dollar (\$50.00) surcharge will be added to the bill and must be paid in addition to the entire delinquent amount before the service is restored. If the bill remains unpaid, a lien for nonpayment will be filed against the property. Partial payments shall be applied first to the sewer bill, second to the water bill and then any excess to the garbage bill.

(Ord. 05-47 § 1 (part); prior code § 52.32)

(Ord. No. 09-38, § 3, 12-10-09; Ord. No. 13-11, § 3, 6-13-13; Ord. No. 16-24, § 2(A), 9-8-16)

Editor's note(s)—Ord. No. 09-38, § 3, adopted Dec. 10, 2009, amended § 13.04.180 title to read as herein set out. Former § 13.04.180 title pertained to delinquent water bills. See the Ordinance List and/or Code Comparative Table and Disposition List for complete derivation.

13.04.185 Termination of water service.

- A. Termination for Non-Payment. Water service may be shut off to any premises for which delinquent unified water, sewer and garbage charges remain unpaid following the provision of notice as set forth in Section 13.04.180 and expiration of the ten-day notice period, or following a determination of delinquency after a hearing, as provided in Section 13.04.180.
- B. Termination upon Vacancy. Water service may be shut off to any premises without advance notice to the person(s) liable for such charges upon the determination by a village building inspector that the premises so served is a "vacant building" within the meaning of Chapter 15.52 of the Village Code. Water service shall only be restored under this subsection upon a village finding that the premises no longer constitutes a vacant building or unit.
- C. Termination upon Cessation of Essential Utility Services. Water service may be shut off to any premises without advance notice to the owner or occupant thereof upon a determination by the village that the said premises is not served with electricity or gas for space heating (i) on any day on which the National Weather Service forecasts that the temperature will be thirty-two (32) degrees Fahrenheit or below during the following twenty-four (24) hours or (ii) during the period of time from November 15 through and including March 31. Water service shall only be restored under this subsection upon (i) a request by the owner or occupant for such restoration, (ii) proof of an active, functioning primary heat source within the premises, and (iii) payment in full of any outstanding water, sewer and garbage charges and re-connection surcharges.

(Ord. No. 14-04, § 3, 1-23-14; Ord. No. 16-24, § 2(B), 9-8-16)

13.04.190 Special agreements.

The corporate authorities reserve the right to enter into separate contracts with users of the village water system for special rates and charges where the particular circumstances render the regular rates and charges inadequate.

(Prior code § 52.33)

13.04.200 Water and sewer fund.

- A. All of the revenue and moneys derived from the operation of the waterworks system and from sewer charges shall be held by the village clerk separate and apart from all other moneys that may come into the clerk's hands, shall be deposited in a separate bank account and all of such sums, without any deductions whatsoever, shall be delivered to the village treasurer not more than five days after the receipt of the same or at such more frequent intervals as may from time to time be directed by the president and the board of trustees.
- B. The village treasurer shall receive all of the revenues from the waterworks system and all other funds and moneys incident to the operation of such system and sewer charges, as may be delivered to the treasurer by the village clerk and the treasurer shall deposit the same in a separate bank account which shall be accounted for as a separate fund designated as the water and sewer of the village. The village treasurer shall administer the fund in every respect in the manner provided by law.

(Ord. 05-47 § 1 (part): prior code § 52.34)

13.04.210 Accounting system.

The village treasurer shall establish proper systems of accounts and shall keep proper books, records and accounts in which complete and correct entries shall be made of all transactions relative to the waterworks system and sewer system, and at regular annual intervals the treasurer shall cause to be made an audit by an independent auditing concern of the books to show the receipts and disbursements of the waterworks system and sewer system.

(Ord. 05-47 § 1 (part): prior code § 52.35)

Article 4.

Water Conservation Practices

13.04.220 Flow rates of plumbing fixtures.

In all new construction and in all repair or replacement of fixtures or trim, only fixtures and trim not exceeding the following flow rates or water usage shall be installed. These ratings are based on a pressure at the fixture of fifty (50)-to-fifty (50) psi:

- A. Water closets, tank type, gallons per flush: three and one-half;
- B. Water closets, flushometer type, gallons per flush: three;
- C. Urinals, tank type, gallons per flush: three;
- D. Urinals, flushometer type, gallons per flush: three;
- E. Shower heads, gallons per minute: three;
- F. Lavatory, sink faucets, gallons per minute: three.

(Prior code § 52.45)

13.04.230 Lavatories for public use.

In addition to the requirements of Section 13.04.220, in all new construction and replacement of fixtures, faucets of lavatories located in rest rooms intended for public use shall be of metering or self-closing type.

(Prior code § 52.46)

13.04.240 Car wash installations.

In all new construction and replacement of fixtures, car wash installations shall be equipped with a water recycling system.

(Prior code § 52.47)

13.04.250 Flushing of sanitary sewers.

Flushing of sanitary sewers with potable water shall only be performed through the use of a high velocity type sewer jet. In all other circumstances, potable water shall not be used for sanitary sewers.

(Prior code § 52.48)

13.04.260 Sprinkling regulations.

- A. During the period of May 15 through September 15 of each calendar year, lawn sprinkling (defined the transfer of water by means of hoses, tubing, pipes or otherwise from any water source under the control of the public works department to any lawn or any outdoor plants or vegetation) is hereby limited as follows:
1. The residents of the village shall limit lawn sprinkling to every other day, with residents with odd numbered addresses watering their premises only on odd numbered days, and even numbered addresses watering their premises only on even numbered days. (Odd numbered addresses may not water lawns on both the thirty-first and first of the next month.)
 2. Lawn sprinkling is prohibited between 10:00 a.m. and 8:00 p.m.
 3. Pursuant to 17 Ill. Admin. Code 3730.307(c)(4) and subject to the Illinois Plumbing Code (77 Ill. Admin. Code 890) and the Lawn Irrigation Contractor and Lawn Sprinkler System Registration Code (77 Ill. Admin. Code 892), all new plumbing fixtures and irrigation controllers installed shall bear the WaterSense label (as designated by the U.S. Environmental Protection Agency WaterSense Program), when such labeled fixtures are available.
- B. Exceptions.
1. Watering using hand held devices will be permitted at any time.
 2. The watering of new landscaping for not more than fourteen (14) consecutive days between the hours of 7:00 p.m. and 8:00 a.m. with automatic and/or hand held watering devices may be permitted upon proper permit by the village.
 3. The requirements of WaterSense fixtures and equipment described in subsection (A)(3) of this section shall apply to all equipment and fixtures purchased and installed after the effective date of this amendatory ordinance.
- C. Violations. Failure to obey an order to limit or cease use of water during a declared water shortage crisis pursuant to Section 14.04.100, or performing lawn sprinkling on a day other than one assigned to a premises by subsection (A)(1) of this section or between the hours of 10:00 a.m. and 8:00 p.m. in violation of subsection (A)(2) of this section, shall constitute a violation of this section.
- D. Fines.
1. Any person, corporation, partnership or entity who violates the provisions of subsection (A)(1) and (A)(2) shall be liable for a fine of not less than twenty-five dollars (\$25.00) for the first offense and fifty dollars (\$50.00) for each offense after one. Each day that said violation continues shall be deemed a separate and punishable offense.
 2. Any person, corporation, partnership or entity who violates any provision of this chapter for which another penalty is not specifically provided shall, upon conviction, shall be subject to a fine not exceeding five hundred dollars (\$500.00). Each day that such violation occurs shall be a separate and punishable offense.
 3. In addition to the fines identified above, the president may limit or cut off the water supply to any structure or premises that fails to comply with the terms and conditions of this section with or without notice, until said structure and all facilities appurtenant thereto comply with the standards of this section, or until the end of a declared water shortage crisis.

(Ord. No. 15-21, § 4, 9-10-15)

Created: 2022-04-04 13:08:25 [EST]

(Supp. No. 29)

Editor's note(s)—Ord. No. 15-21, § 4, adopted Sept. 10, 2015, repealed the former section and enacted a new section as set out herein. The former section pertained to similar subject matter and derived from prior code § 52.49.

13.04.270 Groundwater as potable water supply prohibited.

A. Definitions.

"Person" is an individual, partnership, co-partnership, firm, company, limited liability company, corporation, association, joint stock company, trust, estate, political subdivision, or any other legal entity, or their legal representatives, agents or assigns.

"Potable water" is any water used for human or domestic consumption, including, but not limited to, water used for drinking, bathing, swimming, washing dishes, or preparing foods.

B. Use of Groundwater as Potable Water Supply Prohibited. Except for such uses or methods in existence before the effective date of the ordinance codified in this section, the use or attempt to use groundwater as a potable water supply within the village of Harwood Heights by the installation or drilling of wells, or by any other means is prohibited. This prohibition shall apply to the village as well as private entities and any other public entities.

C. Penalties. Any person (including but not limited to an individual, partnership, corporation, firm, company, association, estate, legal subdivision, or any other legal entity, or their legal representatives, agents or assigns,) violating the provisions of this section shall be subject to a fine of not less than one hundred dollars (\$100.00) per day, and each day shall constitute a separate violation.

(Ord. 99-35 § 1; prior code §§ 52.50—52.52)

13.04.280 Violation—Penalty.

A. Any person who violates any provision of this chapter for which another penalty is not specifically provided shall, upon conviction, shall be subject to a fine not exceeding five hundred dollars (\$500.00). Each day that such violation occurs shall be a separate and punishable offense.

B. Any person who violates the provisions of Section 13.04.270 shall be liable for a fine of not less than twenty-five dollars (\$25.00) for the first offense and fifty dollars (\$50.00) for each offense after one. Each day that said violation continues shall be deemed a separate and punishable offense.

(Ord. 01-52 § 1; prior code § 52.99)

Chapter 13.08 SEWER SYSTEM

Sections:

Sections:

Sections:

Article 1. General Provisions

13.08.010 Definitions.

For the purpose of this chapter, the following definitions shall apply unless the context clearly indicates or requires a different meaning.

"Sanitary sewer" means a sewer or drain for the drainage of water closets, sinks, laundry tubs, bathtubs and similar fixtures.

"Storm water sewer" means a sewer or drain for the drainage of roofs, lands, foundations and surface water.
(Prior code § 51.01)

13.08.020 Permit required.

No person shall make any connection to any public sewer or alter or disturb any public sewer or make any excavation in or around same without a permit issued by the village.

(Prior code § 51.02)

13.08.030 Permits granted to licensees only.

No permit shall be granted under any section of this chapter to any person not licensed according to state law and this code.

(Prior code § 51.03)

Article 2. ***Connections and Equipment***

13.08.035 Fees for sewer service.

A. Single-Family Residential Consumers.

1. Single-family residential consumers shall be billed on a bi-monthly basis.
2. The rate shall be twelve dollars and one cent (\$12.01) for the first two thousand (2,000) cubic feet of metered water and sixty cents (\$0.60) thereafter per one hundred (100) cubic feet of metered water to a maximum of thirty dollars and four cents (\$30.04).
3. The rate for single-family residential consumers who are sixty-five (65) years of age or older and provide proof of ownership and shall be fifty-five cents (\$0.55) per one hundred (100) cubic feet of metered water to a maximum of fifteen dollars and sixty-six cents (\$15.66).
4. If the meter reader is unable to access a meter and the owner does not provide the village a meter card then the maximum charge of thirty dollars and four cents (\$30.04) shall apply.

B. Multifamily Residential Consumers.

1. Multifamily residential consumers shall be billed on a monthly basis.
2. For two unit properties, the rate shall be thirteen dollars and forty-seven cents (\$13.47) for the first one thousand (1,000) cubic feet of metered water and sixty-eight cents (\$0.68) thereafter per one

hundred (100) cubic feet of metered water to a maximum of fifty-nine dollars and fifty-three cents (\$59.53).

3. For three and four units the rate shall be twenty dollars and five cents (\$20.05) for the first one thousand (1,000) cubic feet of metered water and sixty-eight cents (\$0.68) thereafter per one hundred (100) cubic feet of metered water to a maximum of one hundred nineteen dollars and six cents.
4. For five units to eighteen (18) units the rate shall be thirty dollars and eighty-six cents (\$30.86) for the first one thousand (1,000) cubic feet of metered water and sixty-eight cents (\$0.68) thereafter per one hundred (100) cubic feet of metered water to a maximum of five hundred twenty-two dollars and thirteen cents (\$522.13).
5. For over eighteen (18) units the rate shall be thirty-one dollars and sixty-two cents (\$31.62) for the first one thousand (1,000) cubic feet of metered water and seventy-nine cents (\$0.79) thereafter per one hundred (100) cubic feet of metered water to a maximum of five hundred twenty-two dollars and thirteen cents (\$522.13).
6. If the meter reader is unable to access a meter and the owner does not send the village a meter card then the maximum charge of five hundred twenty-two dollars and thirteen cents (\$510.00) shall apply.

C. Commercial and Industrial Consumers.

1. Commercial and industrial consumers shall be billed on a monthly basis.
2. The rate shall be thirty-one dollars and sixty-two cents (\$31.62) for the first one thousand (1,000) cubic feet of metered water and seventy-nine cents (\$0.79) thereafter per one hundred (100) cubic feet of metered water to a maximum of one thousand forty-four dollars and twenty-six (\$1,044.26).
3. If the meter reader is unable to access a meter and the owner does not send the village a meter card then the maximum charge of one thousand forty-four dollars and twenty-six (\$1,044.26) shall apply.

D. Not-for-Profit Organizations.

1. Not-for-profit consumers shall be billed on a monthly basis.
2. The rate shall be twelve dollars and one cent (\$12.01) for the first two thousand (2,000) cubic feet of metered water and sixty cents (\$0.60) thereafter per one hundred (100) cubic feet of metered water to a maximum of thirty dollars and four cents (\$30.04).
3. If the meter reader is unable to access a meter and the agency does not provide the village a meter card then the maximum charge of thirty dollars and four cents (\$30.04) shall apply.

E. Unincorporated Areas and Nonresident Users.

1. Unincorporated and nonresident users shall be billed on a monthly basis.
2. The rate shall be five hundred twenty-five dollars (\$525.00) per month per sewer connection.

F. Sewer Rate Table.

Sewer Fees—Residential and Non-Profit—Effective June 1, 2021				
Type	Minimum Charge per Billing < 2,000 cf	Rate per 100 Cubic feet	Maximum Charge	Billing Frequency
Residential	\$12.01	\$.60	\$30.04	Bi-Monthly
Residential (Seniors)	N/A	\$.55	\$15.66	Bi-Monthly
Non Profit	\$12.01	\$.60	\$30.04	Monthly

Sewer Fees—Multi Unit/Commercial/Unincorporated				
Type	Minimum Charge per Billing < 2,000 cf	Rate per 100 Cubic feet	Maximum Charge	Billing Frequency
2 Units	\$13.47	\$.68	\$59.53	Monthly
3—4 Units	\$20.05	\$.68	\$119.06	Monthly
5—18 Units	\$30.86	\$.68	\$522.13	Monthly
19 + Units	\$31.62	\$.79	\$522.13	Monthly
Commercial	\$31.62	\$.79	\$1,044.26	Monthly

(Ord. 06-31 § 1: Ord. 05-47 § 1 (part))

(Ord. No. 09-26, § 3, 8-13-09; Ord. No. 19-19, § 2, 10-10-19; Ord. No. 21-09, § 2, 5-13-21)

13.08.040 Connection specifications and regulation.

- A. The connection between the soil or waste pipe and the vitrified tile sewer extending to the public sewer shall be core tapped and saddled.
- B. An arched or other proper opening shall be provided in the wall for the house drain to prevent damage by settlement. The opening around the house drain may be filled with pure refined asphaltum.
- C. All connections between metal pipes and between metal pipe and tile sewer shall have a six-inch by four-inch mission coupling and shall be made by a licensed plumber and in such manner as the building commissioner shall direct.
- D. Whenever practicable, the house sewer shall connect with the public sewer by means of a "Y" junction in the public sewer left for such purpose. If such "Y" junction is not available, a core tap with saddle may be made in the public sewer for the house sewer connection. Such connection shall be made tight and laid in a bed of six-inch deep three-quarter inch stone in a manner satisfactory to the building commissioner.
- E. Direct connection of a house sewer to a manhole or catch basin on a public sewer is prohibited unless the written permission of the building commissioner is first obtained.
- F. In every case, connections of any kind with the public sewer shall be made under the supervision and in a manner satisfactory to the building commissioner.

(Prior code § 51.10)

13.08.050 Separate connection required for each building.

- A. Every building shall be separately and independently connected by a separate house service sewer pipe with a public sewer when there is any such sewer adjoining the lot or parcel of land on which such building is erected.
- B. The entire plumbing and drainage system of every building shall be entirely separate and independent from that of any other building, except that two buildings may be connected with the same stub of the public sewer by means of a manhole in the parkway, in such manner as the building commissioner shall direct.

(Prior code § 51.11)

13.08.060 Footing drains.

In any building constructed after July 20, 1971, footing drains shall be connected to sump pumps, and discharge shall be made into storm sewers, or onto owner's property, providing the drainage is a minimum of ten (10) feet from the adjacent property line. No footing drains or drainage tile shall be connected to the sanitary sewer.

(Prior code § 51.12)

13.08.070 Pipe specifications and regulation.

- A. Sewer pipe for the house sewers shall conform to the A.S.C.E. standards.
- B. Pipe for both sanitary and storm water house sewers shall be at least six inches in diameter. Where larger capacity is required, sewers shall be of a size which the building commissioner may consider adequate.
- C. House sewers shall be laid on six inches of three-quarter-inch stone in a manner satisfactory to the building commissioner.
- D. House sewers shall be laid with a fall toward the main sewer of not less than one-quarter inch per running foot where practicable. In case it is found necessary to deviate from such grade, the manner of construction shall be decided by the building commissioner.
- E. All sewer repairs on service lines are the responsibility of the building owner.

(Prior code § 51.13)

13.08.080 Changing direction of pipes.

Where it is necessary to make a change in direction of a house sewer between the building and the public sewer, such change of direction shall be made by means of a manhole constructed as the building commissioner shall direct.

(Prior code § 51.14)

13.08.090 Manholes.

All manholes shall be constructed of concrete, either monolithic or block, composed by volume of one part portland cement, two parts sand, and four parts gravel or crushed stone, mixed with sufficient water. They shall be circular in section, with an interior diameter of three feet except that the top shall be drawn into two feet beginning at a point three feet below the top, so as to fit and support the top cover. The walls of such manhole shall be four inches in thickness if built monolithic, or five inches if built of blocks with full joints of mortar composed of one part portland cement and two parts of sharp, clean sand mixed with sufficient water. Each manhole shall be provided with a six-inch concrete floor with the invert, if any, molded smoothly in the concrete or formed of sections of vitrified pipe imbedded in the concrete. Each manhole shall be provided with a cast-iron cover and cast-iron or concrete frame. The floor of all gravel basins shall be three feet below the flow line of the outlet.

(Prior code § 51.15)

13.08.100 Inspections.

All work done in connection with the installation of sewer connections shall be subject to the inspection, supervision and control of employees designated by the corporate authorities. All sewer pipes shall be left exposed for inspection and shall not be covered until approved by such officers. Notice shall be given to such officers at least twenty-four (24) hours prior to the making of a connection.

(Prior code § 51.16)

Article 3. ***Prohibited Uses***

13.08.110 Discharge into storm sewers.

No person shall make connection to a storm sewer for the purpose of discharging sanitary or industrial wastewater. Specifically, no firm, corporation or entity shall discharge any sanitary waste or industrial waste water into any storm sewer or drainage facility constructed as part of the Illinois Route 43 Improvement, the limits of the improvement being between Cullom Avenue and Illinois Route 72, a portion of which passes through the village.

(Ord. 00-21 § 1; prior code § 51.25)

13.08.120 Permitting storm or surface water to drain into public sanitary sewer prohibited.

- A. No storm or surface water from any house shall be permitted to drain into the public sanitary sewer.
- B. As used in this section, the term "house" shall also include any store building, apartment building or any other principal structure upon any parcel of land.

(Prior code § 51.26)

13.08.130 Discharge into certain sewer prohibited.

It is unlawful for any person to discharge or cause the discharge of any sanitary and industrial wastewater into the storm sewer system being constructed by the department of public works and buildings of the state of Illinois along and upon Harlem Avenue from seven hundred sixty-seven and one-half (767½) feet south of the center line of Lawrence Avenue to five hundred twenty (520) feet north of the center line of Gunnison Street.

(Prior code § 51.27)

13.08.140 Prohibited discharges into sewers.

No person shall place or discharge or cause to be placed or discharged into any sewer any rubbish, trash, yard waste, effluent or any other matter or material of any kind whatsoever except as expressly allowed by this chapter.

(Prior code § 51.28)

Chapter 13.12 EMERGENCY ENERGY PLANS

Sections:

13.12.010 Definitions.

As used in this chapter, unless the context otherwise requires:

"Control area" means an electrical system bounded by interconnection (tie-line) metering and telemetry. It controls generation directly to maintain its interchange schedule with other control areas and contributes to frequency regulation of the interconnection.

"Control area emergency" means that control area is at risk of having to shed firm load, having taken or committed to take all feasible mitigating action short of shedding firm load and firm sales.

"Controlled rotating interruptions of electrical service" means the implementation of a plan to curtail electric service to firm load customers for a short period of time and rotating this curtailing of electric service through different areas within the electric utility's service territory in a situation where the demand has exceeded or is at significant risk of exceeding the supply of electricity available to the electric utility. The action of an electric utility to interrupt or curtail electric service to a customer participating in or taking service under an interruptible or curtailable rate is not included in this definition of a "controlled rotating interruption of electric service."

"Electric utility company" or "electric utility" means any person or entity engaged in the business of distributing, transmitting, or otherwise delivering electricity, regardless of its source, for use or consumption within the village. This term shall not include any person or entity that delivers electricity to fewer than fifty (50) customers within the village.

"Emergency energy plan" means the portions of the emergency load conservation procedures, which immediately precede and include the controlled rotating interruption of electrical service to firm load customers within the village. The emergency energy plan shall include the following steps:

1. A request for emergency help from neighboring utilities;
2. A declaration of a control area emergency;
3. A public appeal for voluntary curtailment of electricity use; and
4. Implementation of the plan for controlled rotating interruptions of electrical service.

"Emergency load conservation procedure" means a planned course of action developed by an electric utility company to be implemented in emergency situations when the demand for electricity exceeds, or is at significant risk of exceeding, the supply of electricity available to the electric utility.

(Ord. 99-13 § 2 (part); prior code § 53.1)

13.12.020 Submittal of emergency energy plan.

- A. Every electric utility company must have adopted an emergency energy plan no later than thirty (30) days after the effective date of this chapter, or within thirty (30) days after becoming an electric utility company, whichever is later. Every such electric utility company shall submit to the village president, an emergency energy plan adopted by the company no later than thirty (30) days after the effective date of this chapter, or adopted by the company no later than thirty (30) days after the effective date of this chapter, or within

twenty-four (24) hours of the time the plan is adopted, whichever is later. The electric utility company shall be required to examine and update as needed its emergency energy plan at least annually. The electric utility company shall notify the foregoing public official(s) in writing of any material revisions to its plan and the rationale for the revisions within five business days of the time the revisions are made.

- B. The emergency energy plan shall include, at a minimum, information detailing:
1. Circumstances that would require the implementation of the emergency energy plan;
 2. Stages of the emergency energy plan;
 3. The approximate geographic limits to each outage area provided for in the emergency energy plan;
 4. The approximate number of customers within each outage area provided for in the emergency energy plan;
 5. The police facilities, fire stations, hospitals, nursing homes, schools, day care centers, senior citizen centers, community health centers, dialysis centers, community mental health centers, correctional facilities, stormwater and wastewater treatment or pumping facilities, and water-pumping stations that have been identified by the village and persons on life-support systems that are known to the company, and that could be affected by controlled rotating interruptions of electric service under the emergency energy plan; and
 6. The anticipated sequence and duration of intentional interruptions of electric service to each outage area under the emergency energy plan.

(Ord. 99-13 § 2 (part): prior code § 53.2)

13.12.030 Review of plan.

- A. Upon submittal of the emergency energy plan to the village, the village shall review the emergency plan in order to determine if the emergency energy plan is complete and to assure appropriate coordination with public health and safety agencies. The village may reject the emergency energy plan if it does not contain all the information required under Section 13.12.020(B), in which case the village shall notify the electric utility company in writing of the rejection and the reasons therefor. The electric utility company shall thereafter submit a complete emergency energy plan to the village no later than thirty (30) days after such notice is sent by the village.
- B. The village and the electric utility shall work cooperatively to:
1. Identify customers and facilities for which a controlled rotating interruption electric service would require heightened response by village public health agencies;
 2. Mitigate the potential impact of the plan on public health and safety; and
 3. Mitigate the potential impact of the plan on the duties of the village's public health and safety agencies.

(Ord. 99-13 § 2 (part): prior code § 53.3)

13.12.040 Implementation of emergency energy plan.

- A. Whenever an electric utility company determines that it may be necessary to implement a controlled rotating interruption of electrical service due to the demand for electricity exceeding, or being at significant risk of exceeding, the supply of electricity available to the electric utility company, the electric utility company shall do the following:

-
1. Take appropriate action in preparation for implementing a controlled rotating interruption of electric service and notify the appropriate electric utility company personnel; and
 2. Notify the village president that the electric utility company will be implementing its emergency energy plan. The notification shall be made pursuant to a notification procedure approved by village president after consultation with the village president. The village president may waive the notice requirement to accommodate exigent circumstances.
- B. Subsequent to providing the notice as required above, an electric utility company shall reasonably and separately advise the designated village officials when it implements each of steps of the emergency plan. Such steps shall include the following:
1. A request for emergency help from neighboring utilities;
 2. A declaration of a control area emergency;
 3. A public appeal for voluntary curtailment of electricity use.
- C. The electric utility company shall give a separate notice to the village president immediately upon the determination that there will be a controlled rotating interruption of electric service pursuant to the emergency energy plan. The notification shall include the areas to be interrupted; the sequence and estimated duration of the service outage for each area; and the affected feeders and number of affected customers in each area. Whenever practical, the notification shall be made at least two hours prior to the time of the outages, and in no case shall the notification be made less than thirty (30) minutes prior to the outages, if the company is aware that controlled rotating interruptions may be required.
- D. Notification required by this section shall be in addition to any notification requirements set forth in any applicable franchise agreement or franchise ordinance, or as may be required by applicable federal or state law or regulation.

(Ord. 99-13 § 2 (part): prior code § 53.4)

13.12.050 Violations—Enforcement.

Any electric utility company that knowingly violates this chapter or any rules promulgated thereunder shall be subject to a fine of not less than two thousand five hundred dollars (\$2,500.00) and not more than ten thousand dollars (\$10,000.00) for each offense. Each day that a violation continues shall constitute a separate and distinct offense.

The village may apply to any court of competent jurisdiction for an injunction or order to compel the other party to comply with the provisions of this chapter.

(Ord. 99-13 § 2 (part): prior code § 53.5)

13.12.060 Construction.

Nothing in this chapter shall be construed to preclude or interfere with the implementation by an electric utility company of measures necessary to assure the provision of adequate, efficient, reliable and environmentally safe service, as required by the Illinois Public Utilities Act (220 ILCS 5/1-101 et seq.). Nothing set forth in this chapter shall be deemed to modify the terms of any existing franchise agreement or franchise ordinance otherwise applicable to any electric utility company, or to excuse any performance required by such agreement or ordinance, or to limit any authority that may be exercised pursuant to such agreement or ordinance, or to limit any remedy that may be available under such agreement or ordinance.

(Ord. 99-13 § 2 (part): prior code § 53.6)

IMPORTANT INFORMATION ABOUT LEAD IN YOUR DRINKING WATER

The Community Water System (CWS) has determined that your property is likely serviced by a lead water pipe. Lead can cause serious health problems, especially for pregnant women and children 6 years and younger. Please read this notice closely to see what you can do to reduce lead in your drinking water.

The CWS provides water that protects our residents from lead leaching into our water system. The CWS has not had a recent violation for lead levels. However, proper maintenance of the system to prevent the leaching of lead costs time, energy, and money. There is also the potential that something might go wrong and people with lead service lines would be exposed to lead in their drinking water.

Health Effects of Lead

It can cause damage to the brain and kidneys, and can interfere with the production of red blood cells that carry oxygen to all parts of your body. The greatest risk of lead exposure is to infants, young children, and pregnant women. Scientists have linked the effects of lead on the brain with lowered IQ in children. Adults with kidney problems and high blood pressure can be affected by low levels of lead more than healthy adults. Lead is stored in the bones and can be released later in life. During pregnancy, the child receives lead from the mother's bones, which may affect brain development.

Sources of Lead

The source of water from Lake Michigan does not contain lead. When water is in contact with service lines or plumbing that contains lead for several hours, the lead may enter drinking water. Homes built before the 1960s in our community are more likely to have lead service lines and lead in solder and plumbing fixtures.

Don't forget, most lead exposure is still from small children ingesting lead paint, dust, and soil. In addition, lead can be found in certain types of pottery, pewter, brass fixtures, food, and cosmetics. Other sources include exposure in the work place and exposure from certain hobbies (lead can be carried on clothing or shoes). Lead is found in some toys, some playground equipment, and some children's metal jewelry. Wash your children's hands and toys often as they can come into contact with dirt and dust containing lead.

Steps That You Can Take to Reduce Your Exposure to Lead in Your Drinking Water

1. *Run your water to flush out lead.*
 - a. If the plumbing in your home is accessible; you may be able to inspect your own plumbing to

- determine whether you have a lead service line. Otherwise, you will most likely have to hire a plumber, or allow the Village to inspect your water line.
- b. If you do not have a lead service line, running the water for 1 - 2 minutes at the kitchen tap should clear the lead from your household plumbing to the kitchen tap. Once you have done this, fill a container with water and store it in the refrigerator for drinking, cooking, and preparing baby formula throughout the day.
 - c. If you do have a lead service line, flushing times can vary based on the length of your lead service line and the plumbing configuration in your home. The length of lead service lines varies considerably.
 - d. The following flushing guidelines are recommended by the American Water Works Association after a lead service line is replaced:
 - i. Find all the faucets that will drain, including the basement and all floors in your house.
 - ii. Remove aerators and screens whenever possible, including the shower heads, from all faucets you plan to flush.
 - iii. Include the laundry tubs, hose-bibs, bathtubs, and showers as flushing points.
 - iv. After all the aerators are off, open the faucets in the basement or lowest floor in the house. Leave all faucets running at highest rate possible, using cold water.
 - v. After the faucets are all open in lowest floor, open the faucets on next highest floor of the house. Continue until faucets are open on all floors.
 - vi. After all faucets are opened, leave the water running for at least 30 minutes.
 - vii. After 30 minutes, turn off the first faucet you opened and continue to turn off other faucets in the same order you turned them on.
 - viii. Clean aerators/screens at each faucet. You may need to replace screens/aerators if too old or worn
2. *Use cold water for drinking, cooking, and preparing baby formula.*
 - a. Do not cook with or drink water from the hot water tap; lead dissolves more easily into hot water.
 - b. Do not use water from the hot water tap to make baby formula.
 3. *Look for alternative sources or treatment of water.*
 - a. You may want to consider purchasing bottled water; or
 - b. Purchase a water filter that is certified to remove "total lead". The filter should be NSF 53 and NSF 42 certified.
 4. *Clean and remove any debris from faucet aerators on a regular basis.*
 5. *Do not boil water to remove lead.* Boiling water will not reduce lead.
 6. *Purchase lead free faucets and plumbing components.*
 7. *Remove the entire lead service line.*
 - a. *As part of the separate Lead Service Line Replacement program, should you agree to participate, the Village will replace your lead service line from the water main to the meter inside your home.*
 8. *Test your water for lead.*
 - a. Call us at: 815-412-2015 to find out how to get your water tested for lead. While we do not do the testing, we can provide a list of laboratories certified to do the testing. Laboratories will send you the bottles for sample collection. Please note that we are not affiliated with the laboratories, and they will charge you a fee.
 - If test results indicate a lead level above 15 ug/L, bottled water should be used by pregnant women, breast-feeding women, young children, and formula-fed infants.
 - b. Approximately one month after service line replacement, testing is recommended. The sample should be a first-draw sample after water has not been used for at least 6 hours. The sample must be collected from a tap used frequently inside the home, preferably from the kitchen.
 - c. As a precaution, until the sample is collected and analyzed, the customer is recommended to do a mini-flush of premise plumbing by running tap water each morning or when the water sits in the pipe for at least 6 hours. Flush for 5 minutes to displace water that has been sitting in the pipes inside the house and in the service line. This could include taking a shower, running the dishwasher, flushing a toilet, collecting water for plants/garden, or running the faucet. The customer should do this before using any

water for drinking, cooking, infant formula, and so on. Daily miniflushes should continue for six months or until lead sample results show the lead level is below the regulatory guideline. The customer should clean debris from aerators and screens once a month for six months. After six months, clean debris twice a year.

For More Information

Call us at () or visit our website at (). For more information on reducing lead exposure around your home/building and the health effects of lead, visit EPA's website at www.epa.gov/lead or contact your health care provider.

Thank you for reading this notice, and we hope to hear from you soon.
